- Reading

KHARISMA PRASETYA

SOFTWARE ENGINEER

PROFILE

I am a Fullstack Software Engineer with over 7 years of experience in building web and mobile applications. I specialize in frontend development using Vue.js, Nuxt.js, React.js, Next.js, and React Native. On the backend, I mainly work with Django and Node.js to create reliable and scalable APIs. I enjoy learning new technologies and can adapt quickly to different project requirements. I also have hands-on experience in deployment and server configuration, including Nginx, Docker, and VPS environments. I am passionate about creating clean, maintainable code and delivering meaningful products that provide real value.

WORK EXPERIENCE

- PT. Takodam Ciptamandiri Nusantara 2021 - PRESENT
Software Engineer
